The SmartJacket is an ultra-light P20 Pro case that offers all around protection. Made of a slim clip and front cover, the clip protects the back of your P20 Pro against scratches, dirt and signs of wear, while the front flap keeps the screen well protected. What makes this slim Artwizz case exceptional is its beautiful design and haptic. The soft-touch coating on the clip provides a great feel and a better grip on your P20 Pro, and the brushed finish gives the front flap an exclusive metal look. Individualize your P20 Pro with different colors without impact its weight or design.
