The Artwizz Clear Clip is ultra thin, transparent all-around protection for the MacBook Air 13 (2018 - 2019). The stylish gold, silver or space grey of the MacBook stays completely visible through the crystal clear case. The color, logo and flat design remain unchanged. The case is cut to fit the MacBook Air 13 (2018 - 2019) perfectly. It's made of two separate clips that are easy to install, remove and clean. It's double-sided MacBook protection against dirt and scratches. The raised rubber feet that are built deep into the material give the MacBook Air 13 (2018 - 2019) a good grip.
