The Artwizz Neoprene Sleeve protects the iPad Pro 12,9 (2018-2019) against scratches and signs of wear. The neoprene material even shields against water droplets. The handy Artwizz sleeve is easy to transport and offers your device complete all-around protection. The sleeve has a great feel and a modern design. Your iPad Pro 12,9 (2018-2019) is comfortably stowed in ultra-soft lining. The noble zipper offers quick, easy access to your tablet. A padded protective lip prevents your aluminum iPad Pro 12,9 (2018-2019) from coming into direct contact with the metal zipper – so it's completely protected. A practical compartment inside the sleeve allows convenient storage of a stylus pen.
