The Artwizz Rubber Clip for MacBook Air 13 (2018 - 2019) combines a lightweight material, perfect all-around protection and individual design better than any other case. The hard shell case fits your MacBook Air 13" (2018 - 2019) perfectly and sits securely with one click. The design of your MacBook Air 13 (2018 - 2019) shines through the translucent clip, while the Apple logo gets a whole new look through the colored clip. The soft-touch coating offers a better grip, while the scratch resistant surface protects against marks and signs of wear. All ports remain fully accessible. The air-slots on the bottom of the case allow for unobstructed air circulation, and the rubber feet help support air flow. The Rubber Clip protects your MacBook Air 13 (2018 - 2019) without changing its look, feel or functionality.
