- Quickly attach wristband to the Apple Watch using the adapter in Space Grey
- Wristband clasp made of stainless steel with textured finish in Space Grey
- Wristband width: 20 mm
- For wrist sizes from 140 - 205 mm

The Artwizz WatchBand Leather is a perfect fitting leather watchband for Apple Watch 4 (40mm) & Apple Watch 1-3 (38mm). The leather of the Artwizz Apple Watch strap is manufactured and tanned in Italy. The outside of the WatchBand is made of high-grade Nappa leather and the inside is made of calfskin for first class comfort. The stainless steel clasp and adapter for the Apple Watch are both available in Space Gray and have a distinctive textured finish. The adapter ensures quick and easy connection or disconnection of the Apple Watch and wristband. It is possible to buy additional adapters separately in other colors. The wristband is ideal for wrists with a circumference of 140 to 205 millimetres. The strap width of the Artwizz WatchBand Leather is 20 millimeters (for the Apple Watch 38 mm & 40 mm) and 22 millimeters (for the Apple Watch 42 mm & 44) and is also compatible with other popular watches and smartwatches, including Android

watches such as the Galaxy Watch and Watch GT. To connect these watches to the WatchBand Leather, simply disconnect the Apple Watch Adapter from the wristband using the Easy-Click spring bar. WatchBand and Smartwatch can then be connected directly to each other using the Easy-Click spring bar.
