- quickly attach to your Apple Watch and wristband with adapter in Silver
- Silicone wristband widths: 20 mm
- suitable for wrist sizes: 130 - 210 mm
- Apple Watch 4-5 (40mm) & Apple Watch 1-3 (38mm)

The Artwizz WatchBand Silicone is a perfect fitting silicone watchband for Apple Watch 4-5 (40mm) & Apple Watch 1-3 (38mm). The flexible and lightweight silicone fits snugly around the wrist and provides a carefree, comfortable fit. The silicone wristband is perfect for wearing during sporting activities because it is sweat- and water-resistant. The adapters are made of machined stainless steel and are available in Space Gray, Silver or Gold, coordinated with the color of your WatchBand Silicone. The adapters for the corresponding sizes are also available separately in the same colors. You can connect and disconnect your Apple Watch from the silicone wristband as usual thanks to the adapter with its sliding mechanism. The WatchBand Silicone fits both narrow and wider wrists with a circumference of 130 to 205 mm (for the Apple Watch 38 mm and 40 mm) and 135 to 215 mm (for the Apple Watch 42 mm, 44 mm). The width of the wristband is 20 mm (for the Apple Watch 38 mm and 40 mm) or 22 mm (for the Apple Watch 42 mm & 44 mm). The

WatchBand Silicone is also compatible with other smartwatches, such as the Galaxy Watch, and conventional watches with a matching strap attachment. Watches with an Easy-Click spring bar, just like the WatchBand Silicone itself, can be easily connected to the silicone wristband. If your watch or Smartwatch does not have an Easy-Click spring bar, you can still use it with the appropriate WatchBand Silicone, but you might need tools to connect it.
