Compatto XL No Rain+ is a rain cover that protects your backpack from rain and showers. Whether you're in town or on a trip, whether you are carrying a large backpack or a small one, one quick movement will ensure your equipment is kept safe and protected from the elements. The plus version also comes with a removable waterproof hood.

When not in use, you can fold it on itself within the vertical-seam pocket, transforming it in just a few seconds into a light, compact pouch to be carried around at all times in your backpack. The special graphics on the front make the model instantly recognisable when folded.
