- Attaches accessories to the front backpack straps – making items secure from theft and accessible. Fits any Strap up to 3 inches wide.
- Attach any accessory with a belt loop, belt clip or molle connection – simply slip clip through accessory connection, wrap clip around backpack strap and squeeze to lock.
- Provides a secure, no-slip, no-bounce and comfortable fit. Tested to 120 mph and 25 pounds
- Can be used to carry smartphone, iPhone, wallet, passport, water, security spray, keys, tools and other items where they are secure and accessible in seconds. It also works with GoPro or similar cameras (requires curved adaptor - not included)
- Clip has integrated ladder lock for up to 1" webbing and loop for carabiner or tie down. Single piece design made of industrial strength nylon. Patent-pending, lifetime guarantee

The Clakit clip transform any bag into a versatile storage solution. The clip locks securely onto your backpack shoulder strap and can hold any variety of cases, cameras, etc.. It has been tested up to 25 lbs and up to 120mph, it holds strong and gives you piece of mind your valuables are safe.

Its simple to install - simply wrap the clip around the desired strap and squeeze to lock. The clamp

has micro spikes which hold the clip secure in place.

Clakit Clips can be installed on either right and left shoulder straps. You can even install multiple StrapPacks on a single strap. The clip can be reused with any accessory that has a belt loop or clip, or molle backing.

You can interchange pouches to the front of your backpack, daypack, baby carrier, or messenger bag. Rather than place often used items on your back, Clakit lets you put them on your front using available shoulder strap space.

Clakit has various applications and is only limited by your imagination. Great for commuting, traveling, sportsmen, hiking, photography and more.
