- Mount for Apple TV Gen. 4, 5, 6 (Apple TV and remote not included)
- Perfect for wall-mounted televisions (Attaches Apple TV to the back of your television)
- Includes three mounting options: innovative hooks for TV vents, special adhesive for elevated TV temperatures, and screws for wall mounting
- Also compatible with older Apple TV Generation 2 and 3

**PERFECT FOR WALL-MOUNTED TV OWNERS** - People with wall-mounted televisions often wonder where to put their new Apple TV. One option is to tunnel an HDMI cable through a wall to an entertainment center, but this option is too destructive and time-consuming for most people. Another option is trying to balance the Apple TV on a fireplace ledge, which can lead to the Apple TV crashing to the floor the first time someone isn't careful around the TV. For wall-mounted TV owners, the solution to the installation problem is simple: TotalMount attaches Apple TV to the back of the television.

Three different choices to mount: hooks for TV-Vents, screws for wall-mount, adhesive strips for mounting on any flat surface.

Whats in-the-box:

TotalMount, screws for wall-mounting, plastic hooks for mounting on TV-vents, adhesive strips for mounting on any flat surface
