- Save even more energy when heating your home.
- Fine-tune your ideal temperature room-by-room and heat according to individual room use.
- Smart heating: enjoy better home comfort and savings with open window detection (available soon), Smart regulation, and manual boost.
- Control all your radiators remotely using just one smartphone app (IOS and Android), or manually on the Smart Radiator valve.
- Works only with the Netatmo Smart Thermostat or the Netatmo Smart Radiator Valves Starter Pack.

The Netatmo additional smart radiator valves designed by stack saves even more of the energy used to heat your home. It analyses your daily routine to optimise your heating schedule in any room. Heat according to individual room use. Control all your radiators using just one smartphone App from anywhere in the world.

Works only with the Netatmo Valve Starter-Set (incl. Relais) or Netatmo central thermostat.

Complete your Netatmo heating solution with the Netatmo Additional Smart Radiator Valves and take control of all of your individual radiators.

Up to 20 valves per installation.
