- Wireless black EnOcean Floor Switch
- without handcontact ideal for the fight against Covid 19
- EnOcean Foot switch for the Nodon SIN modules 1 and 2 channel and Rollershutter
- mounting on the floor or the lower part of a wall.
- servicefree without batterie

The EnOcean Floor Switch allows the lighting to be activated from the foot, preventing people from touching the wall switches and thus disinfecting them. In this way, it ensures the safety and health of all by minimizing physical contact. The Floor Switch is battery-free and can be easily installed either on the floor or on a baseboard. It can be quickly paired with an ON/OFF Lighting Module (firmware version V3.5.0 and higher) to control the lighting with the foot. This switch is suitable for any type of place.
