- Smart buttons that are easy to setup in the Flic app
- Let the Flic button replace your apps or voice commands, control lights, music, appliances
- Up to 3 separate commands per button: click, double-click, and 3-second press
- Can also mimic a keyboard keystroke on PC/Mac
- Compatible with 1000 devices, Apple HomeKit, Amazon Alexa, Philips Hue, LIFX, Sonos, IKEA, etc.

With the Flic Smart home Starter Kit you can connect all your smart home devices and trigger complex functionality with a simple click. No need to go through your phone again. You can connect up to 64 Flic buttons simultaneously over Bluetooth Low Energy and Bluetooth Long Range. This starter kit contains 1 Flic Hub Long Range, 4 Flic 2 buttons, 1 sticker sheet, 1 USB cable, 1 power wall-adaptor

Smart Home Control - Lights, music, and appliances at the push of a button. Keep it simple for even the youngest family members to understand. Or go advanced with Flic's endless configuration possibilities. Make it clear what each button does with icon stickers.

A Flic 2 can also mimic a keyboard keystroke on PC/Mac. The smartphone app is necessary for onetime set-up, but after that Flic 2 communicates per Bluetooth directly with Mac/PC.

Each smart button can communicate up to 3 separate commands: 1x push, double-push and 3 second-hold

Compatible with 1000 devices, Apple HomeKit, Amazon Alexa, Philips Hue, LIFX, Sonos, IKEA, etc.. IFTTT and scenarios can also be set-up.

Die Flic 2 buttons are also compatible with the Flic 2 Hub (not included in this kit).
