- Wall bracket rotates 90 degrees for iPad mini
- Docking station and photo frame in one
- Base plate made of anodized aluminum
- Lockable
- Optional flush-mounted power supply with s24l flush-mounted power supply

Lockable and rotatable 90 degree wall bracket 2nd generation. (Successor of the sDock mini s8.04)

Charging station. Photo frame - all in one.

Front and back made of anodized aluminum. Remaining parts made of the highest quality, partly additionally reinforced plastic.

Lockable - In the office, at trade fairs, in hotels or in public facilities, the iPad is safe from "long fingers" thanks to a lock. The lock only allows access to the iPad to those who should actually have it. The lock is included as standard.

With just one hand, the iPad is inserted into the sDock so that it can still be used or charged.

To insert: first click on the top, then the bottom. Finished.

Take out: Simply press briefly upwards. Take out. Dead easy.

The sDock pro is quick and easy to install. It can be mounted on the wall in portrait, landscape or swivel mode.

Flush-mounted - power supplies optionally available (230V mains current S24 I flush-mounted power supply or PoE)

A power supply is not included in the scope of delivery.

Contents: sDock with paper photo, lock with 2 keys, USB to Lightning cable, mounting material, instructions for use, dimensions 251 x 120 x 20 mm (HxWxD)
