- HiRise aligns your MacBook or laptop with an external display for the ultimate dual-screen setup
- Non-slip arms hold and protect all size MacBooks or Notebook - from 11-inch Air to 15-inch Pro
- Rear piston easily adjusts the height of your MacBook/Laptop up to 6 inches
- Elevate MacBook/Laptop for improved airflow, cooling, quieter performance, and out of harms way
- Made from aluminum for a sturdy stance, and an easy grab-and-go situation

HiRise for MacBook is the only height adjustable desktop stand that lets you elevate your MacBook to your most comfortable viewing height. The sturdy aluminum stand is designed to work with all MacBook models, from an 11-inch MacBook Air to a 15-inch MacBook Pro. HiRise for MacBook has a spring loaded piston that allows you to customize the height of your MacBook, creating desktop comfort. HiRise has two silicone-lined arms that grip your MacBook like a tire gripping the road, while providing maximum airflow around your Mac. Set HiRise for MacBook to your optimal viewing height, pair with a keyboard and mouse, and get down to business. If you work with a dual monitor setup, HiRise lets you set the horizon of your MacBook to the same height as your Apple Display.
