- Beautiful, modern, wireless charger for wireless chargeable iPhones, Smartphones and other small devices
- Customizable 4x6 inch / up to 10.1x15.2cm frame holds any personal photo or room-matching wallpaper
- Three charging positions & compatible with most cases up to 3mm thick
- Uses any 20-watt USB-C power adapter (not included)

PowerPic mod is a world-class wireless phone charger with a design as radical as wireless charging itself. With a blend of modern design and 10 watts of Qi charging technology, PowerPic mod charges all of the newest, and oldest, wireless charging phones, including phones with cases up to 3mm thick. As a bonus, this elegant stand also charges AirPods Pro.

The see-through front acrylic panel is magnetically held and can be easily detached so any photo can be inlayed. By simply reapplying the front panel with the embedded magnets the photo is protected and secure.

The acrylic frame on PowerPic mod can be positioned vertically or horizontally and is easily customizable with a 4x6 photo. Wirelessly charge your phone on the only stand that looks like it belongs in your home.
