- Hide messy hard drives, cables, and dongles behind your iMac or Studio Display
- Store USB-C hubs + cables right next to your connections
- Display awards, business cards, or retail signage facing customers
- Includes watchband-quality peripheral strap for top or bottom storage
- For the Apple 24 inch M1 iMac and Studio Display

BackPack is the one-of-a-kind custom shelf for the 24 inch M1 iMac and Studio Display. Designed exclusively for Apple's newest desktops, the sleek aluminum BackPack shelf quickly and seamlessly attaches to the back of your iMac or Studio Display stand.

Use BackPack to declutter your desk by storing and elevating portable hard drives and USB-C hubs behind your display, on top of this sturdy vented shelf. BackPack even includes a Peripheral Strap and ties to secure your gear on top and underneath the sturdy BackPack shelf. If your Display faces co-workers or customers, use the matte white shelf to display artwork, awards, or a welcome sign. Tidy up your workspace with an accessory so integrated into the Apple's stand design, it looks like it came with it.
