- Full-grain leather case provides six-sided protection
- Built-in shell securely holds iPad while featuring edge to edge display
- Serves as a typing / sketching wedge and display stand
- Interior pocket for a slim, compact keyboard or documents
- Includes space for Apple Pencil to store + charge on-the-go

The Twelve South BookBook for iPad 10 is a classic case reimaged.

BookBook Case for iPad is a hand-crafted leather case that doubles as a viewing stand and typing wedge. A built-in shell securely holds your iPad while showcasing the edge to edge display. BookBook for iPad also includes storage space for your Apple Pencil so you can keep track of it while charging on-the-go. Capturing images and video is easy with BookBook thanks to a back cover camera window. Additionally, an interior pocket holds documents and more. Best of all, BookBook protects your iPad between two hardback covers and a reinforced spine.
