- Holds all MacBooks or Notebooks, Laptops vertically, freeing up desk space
- Compatible with any MacBook or notebook, laptop up to 1-inch thick
- Makes room for a large displays, even on smaller desks. To be used with external keyboard and mouse.
- The weight of the computer forces the sides of the BookArc Flex to gently squeeze the MacBook / Notebook and hold it tight and upright
- Designed to support current and future MacBooks, Notebooks. Braces made of rubber protect the Notebook.

BookArc Flex is the new vertical desktop stand, compatible with all MacBooks and Notebooks up to 1 inch thick.

BookArc Flex is a stunningly beautiful vertical MacBook stand. BookArc Flex maximizes desk space by holding your MacBook / Notebook vertically while connected to a monitor, keyboard and mouse, turning your MacBook / Laptop into a desktop. Place your MacBook inside and your laptop's own weight draws the stand's supporting arcs together. BookArc Flex cradles the MacBook / Notebook you have now, and in the future because it automatically adjusts to any size

laptop up to 1-inch thick without additional inserts. Streamline your desk.
